

Year 2 Curriculum News

Respect. Believe. Succeed.

Spring term begins!

Thank you for the support last term. The children are fully into the swing of Y2, working hard to extend learning.

Please continue to read at home with your child. Remember to sign and record any comments relating to reading in the yellow reading journals. Please also work on reading & writing the Common Exception words. This can be written into the children's homework books.

2B Assembly - this will take place on 9th February at 2.30pm in the hall. We hope to see you there.

Seasonal Change

Our focus this half term will be about the changing seasons. In Art we will look at an artist who uses different printing techniques to create scenery in different seasons. In Geography we will explore the weather and its patterns. In Music we will look at the sounds of the sea, city and countryside and explore how seasons affect the sounds we hear.

A Peek At What We Are Learning

Reading

Writing

Maths

Science

We will start by looking at a collection of 'Haikus' in a book called 'Lion of the Sky'. Haikus are a form of poetry originating from Japan and have a '5-7-5' syllable structure. We will then move on to a book called 'Mr Wolf and the Enormous Turnip' which explores the theme of friendship and how important friends are.

The children will have a go at writing their own Haiku about one of the seasons and will focus on writing sentences with the correct syllable structure. After reading 'Mr Wolf and the Enormous Turnip', the children will focus on writing with interesting expanded noun phrases, co-ordinating conjunctions and changing the story using their own ideas.

We will learn start the term learning how to use grouping and sharing to divide. We will then move on to learning about different types of measurement, including length (m & cm) mass (kg & g).

We will be exploring what animals (including humans) need to survive. We will look at the differences between what we want and what we really need and the importance of water, a nutritious diet, shelter and sleep.

PE Days

Monday (2H), Thursday (2B)
and Friday (both classes)

If you have any concerns, do not hesitate to contact us. This is best done by email.
